

WATER TANK SENSOR

Compatible with the TVMS Rogue (TVMS1240)

Product Function

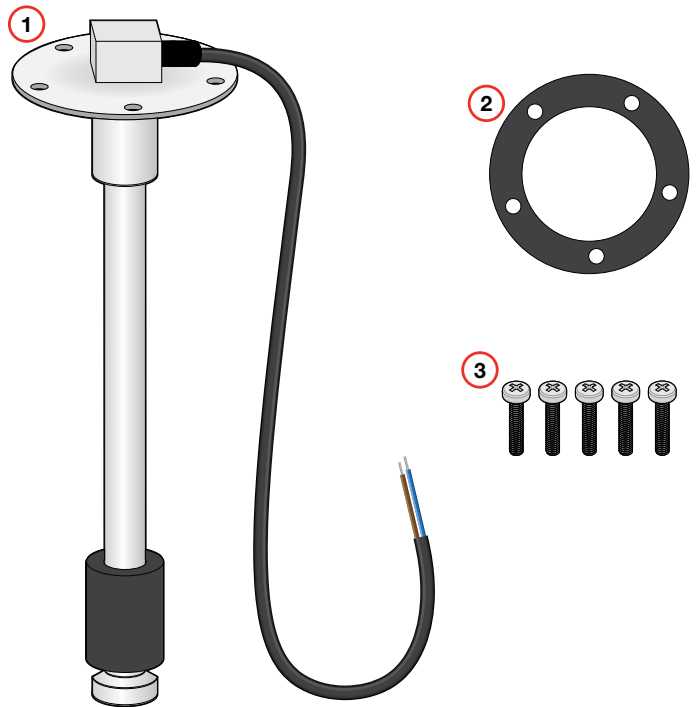

The TLSEN Water Tank Sensors are designed to be wired to the TVMS Rogue (TVMS1240) for measuring tank levels. The Tank Sensor materials are FDA approved meaning they are safe to use in drinking water tanks.

Once wired to the TVMS Rogue, the Water Tank Sensor can be configured via the REDARC Configurator App and monitor via the RedVision® App and Display (DISP4300).

Refer to the TVMS Rogue Instruction Manual for wiring instructions.

Kit Contents

Part Description	QTY
1 Water Tank Sensor	1
2 Gasket	1
3 M5 × 16mm Mounting Fasteners	5

Specifications

Sensor Length	
TLSEN175	175 mm (±2 mm) / 6.9" (±0.08")
TLSEN200	200 mm (±2 mm) / 7.9" (±0.08")
TLSEN225	225 mm (±2 mm) / 8.85" (±0.08")
Mounting	SAE 5 Hole
Material	SU304 Stainless Steel
Sensor Output	Resistive 240–33Ω (empty–full)
Standards
